

Competence-based PhD and Masters programme development

Major differences in developing Master and PhD curricula

Anthony Vickers

Masters and PhD courses

It is now time to look back at examples of Masters and PhD courses which include elements of a learning outcome approach before we later review the experiences of Russian Universities and then undertake further group work to explore building a degree course at level 7 or 8.

Level 7 – Masters (European University Cyprus)

Let us look at another example of Masters level courses. I have chosen the School of Sciences within the European University Cyprus.

[The School of Sciences](#)

Level 8 - PhD

Let us look again at some examples.

- [Doctoral Training Centres.](#)
- [Centre for Doctoral Training in risk & uncertainty.](#)
- [IGGI \(Intelligent Games Game Intelligence\).](#)
- [Doctorate in Clinical Psychology.](#)
- [An example of generic learning outcomes for graduate levels.](#)
- [Doctoral Degree Characteristics \(QAA\).](#)
